

ePostcardXpress™!

Your Hottest, New Tourism & Customer Service Tool!

Dear Sir/Madam,

You spend **HUGE** amounts of money, time and resources on world-class customer services, ensuring that your customers come back to you! Further, you want your customers to tell their friends, family and colleagues what a great time they had while with you.

In an effort to help you maintain the highest level of high-tech services to your clientele, we at **ePORT Systems, Inc.** have created one of the world's most unique digital postcard greeting services that not only advertises your company world-wide, but pays YOU for it as well!

The new **ePostcardXpress™** 'station' is an innovative, wall-mounted kiosk, that allows your customers to create personalized photo, video/audio postcards, together with your location backgrounds, & sends them instantly via the internet to any email address of their choice.

The customer can also opt to send his/her postcard in a printed format, to any **physical address** of their choosing! Most importantly, each postcard sent, has your company's advertising embedded on it and refers the postcard recipient to your website! **Very slick very effective!**

To make the **ePostcardXpress™** service even more attractive, we've made it inexpensive to use... only **\$ 3 - \$ 4!** As the 'station' accepts only credit cards, has virtually **no cost to vend**, and has little or no maintenance, it makes an ideal customer service 'partner'.

We would like to give you and on-site demonstration of this exciting new, easy-to-use system, and explain how you can take advantage of having your own on-site station at no cost to you.

Very sincerely,

David Burke
Director of Marketing
ePORT SYSTEMS, Inc.
